

		Wednesday 24th March 2010		
09:00 - 10:30	Opening Keynote			
10:30 - 11:00	Coffee Break			
	STRATEGIC TRACK	TECHNICAL TRACK	HYDRO TRACK	
11:00 - 12:30 Session 1	Extracting value from the market - Panel Discussion	Advanced Steam Plant Technologies	Large Hydro	
12:30 - 14:00	Lunch			
14:00-15:30 Session 2	Safeguarding Investment in the Russian Power Market	Advances in Gas Turbine Technology	Improving the Safety of Dam Construction & Monitoring	
15:30-16:00	Coffee Break			
16:00-17:30 Session 3	Market regulation and energy policy	Emission Control Technologies	Problem Solving & Best Practice	
		Thursday 25th March 2010		
09:00-10:30 Session 4	Developments in the Russian Engineering/EPC Equipment Suppliers Market	Operation & Maintenance	Refurbishment of Assets	
10:30-11:00	Coffee Break			
11:00-12:30 Session 5	Vender & Supplier Case Studies	Plant Retrofit & Life Extensions	Small Hydro	
12:30-14:00	Lunch			
14:00-15:30 Session 6	Energy Efficiency Policy & Strategies	Plant Optimization & Cost Reduction	Civil Works Structures	
15:30-16:00	Coffee Break			
16:00-17:30 Session 7	Asset Management - practical solutions	Designs for Combined Cycle & District Heating	Condition Monitoring	
		Friday 26th March 2010		
09:00-10:30 Session 8	Russia's Renewable Energy Potential	Power System Operation Technologies	Generator Diagnostics / Control Systems	
10:30-11:00				
11:00-12:30 Session 9	Security of Supply	Modern Turbogenerator Design	Pumped Storage
